Maracá - São Paulo

I aim to establish my career in the Front-End field, applying my robust knowledge in HTML, CSS, and JavaScript, complemented by practical experience in MySQL Database. Currently enrolled in the Systems Analysis program at FEMA, my focus is on refining foundational skills and initiating advanced learning in React. With an intermediate level of English proficiency, I seek a challenging opportunity where I can contribute to innovative projects, leveraging my ease of learning and consistent dedication to professional growth.

I am eager to contribute my passion for programming, continuous learning commitment, and the skills I am honing in React to your team. I believe that my solid educational background and technical expertise can significantly enhance project success. I sincerely appreciate the opportunity to be considered for this position and am available for an interview at your earliest convenience.

Best regards,
Gabriel Morais Dias Baptista
